PA301

Riveter

- + Hydro-pneumatic system
- + With nosepieces: 2.4, 3.2, 4.0, 4.8 mm
- + Provides quick, quiet and comfortable operation
- + Unique spring design virtually eliminates vibration during operation.
- + Quick release air valve permits cylinder to return quickly for high-speed assembly operations, prevents overloading for long lif

PA301

Capacity (mm) : 2,4~4,8

Stroke length (mm) : 16

Traction power (lb.-f) : 2303

Traction power (kg-f) : 1045

Air consumption (L/cycle) : 1,48

Air Pressure (bar) : 6,3

Air Pressure (PSI) : 90

Air inlet (inch) : 1/4"

Sound level (dBA) : 79,7

Vibration level (m/s²) : 0,3

Weight (g) : 1500
