NC8266P

1" Composite Impact Wrench (3118 Nm)

Mechanism Type : Twin Hammer

- + The light and powerful solution for working in tight spaces
- + The pistol format associated with the side handle allows to have an excellent grip and a great stability during use
- + The front shell and the rear of the impact wrench are made of magnesium alloy, for lighter weight and better vibration absorption
- + Composite body
- + Rotor with 6 spring-loaded blades
- + The springs reduce the passage of impurities that could block the rotation of the rotor blades
- + Increased service life and performances
