STG

Battery charger

- + The Ultimate Battery Charging, support and Diagnostic Tool.
- + The microprocessor, it will help to restore your battery quickly and easily.
- + Testing into one simple process with this easy to use Advanced Battery Charger.
- + Automatic maintenance mode.
- + Energy efficient.
- + Extends battery life.
- + Protection against sparks.
- + Alternator and battery test.
- + Compatible with LiFePo4 Lithium battery.
- + Compatible with AGM / WET / MF / EFB lead-acid batteries.

STG5

Frequency (Hz) : 50/60

Charging and testing stages : 7

Power supply voltage (V) : 220 - 240

Charge capacity (Ah) : 1.2 - 110

Maintenance capacity (Ah) : 1.2 - 160

Battery charger : 12 V - 5 Ah

Standard : IP65

STG10

Frequency (Hz) : 50/60

Charging and testing stages : 7

Power supply voltage (V) : 220 - 240

Charge capacity (Ah) : 24 - 200

Maintenance capacity (Ah) : 24 - 250

Battery charger : 12 V - 10 Ah

Standard : IP65

STG15

Frequency (Hz) :

Frequency (Hz) : 50

Charging and testing stages : 7

Power supply voltage (V) : 220 - 240

Charge capacity (Ah) : 24 - 300

Maintenance capacity (Ah) : 24 - 500

Battery charger : 12 V / 15 Ah - 24 V / 7.5 Ah

Standard : IP20
