GDI

Digital angular torque wrenches

- + Precision : clockwise +/- 2% and counter-clockwise +/- 3%.
- + Calibration certificate included.
- + Comes in a metal box with foam for storage and protection.
- + LCD screen.
- + LED, vibration and sound warnings when torque is reached.
- + Operating time: 110 hours.
- + 2 AA 1.5V batteries (included).
- + Torque units: Nm, lb-in, lb-ft, Kg.cm.
- + Robust steel tube.
- + Up to 30 sets of values can be recorded.
- + Energy saving mode (switches to energy saving mode after 2 minutes).
- + Ergonomic dual-material handle.
- + Peak, Track measurement modes

GDI406060

Length (mm) : 450

Square drive : 1/2"

Gear (teeth) : 72

Torque Range (Nm) : 6~60

Weight (g) : 1100

GDI434340

Length (mm) : 659

Square drive : 1/2"

Gear (teeth) : 72

Torque Range (Nm) : 34~340

Weight (g) : 1400
