DWL102

Portable worksite spotlight (7000 lm)

- + Compatible battery : DB1850P (18V, 5 Ah).
- + Dual AC/DC power supply - Enjoy maximum flexibility: use your projector at home or on the move, without power supply constraints.
- + SMD LED lighting - Combines white and warm LEDs for optimum brightness and more natural color rendering.
- + Adjustable light output - Two lighting modes for optimum flexibility: up to 7000 lm or 2000 lm (white and warm) in DC mode, and 3500 lm or 1000 lm in AC mode.
- + Optimized autonomy - Enjoy up to 7.5 hours in low-power mode and 2.5 hours at full power, for performance tailored to your needs.
- + Efficient power supply - Supplied with an 18V 2A AC/DC adapter for stable, high-performance operation in any mode.
- + Versatile mounting - Thanks to 2 retaining hooks and 4 powerful magnets, you can easily hang your projector on any metal surface, or hang it wherever you need it.
- + Battery life indicator - The 4 built-in LEDs clearly display the remaining battery life, so you always know when it's time to recharge.
- + 360° swivel heads - Enjoy maximum flexibility with 2 swivel heads that let you adjust lighting in all directions for optimum coverage.
- + Powerbank function - Thanks to its USB-A port, this lamp can also be used as a powerbank to recharge your mobile devices on the move.
- + Water-resistant - With IPX4 protection, the floodlight is splashproof, ideal for outdoor use in all type of weather.

DWL102

Dimensions W x D x H (mm) : 180 x 145 x 440

Brightness (lm) : DC : 7000 / 2000 - AC : 3500 / 1000

Battery life (hours) : 7.5 / 2.5

Weight (kg) : 2.78
